# ArmorPolymer™ Recycled Plastic Products - Pole Barrier Bases

Part Number: PB1212102  
12" x 12" x 1" With Alternate 1-7/8" Center Bore Diameter  
Machined from 100% Recycled Polyethylene, 1" Thick Sheet  
Outer Dimensional Tolerance +/- 1/16"  
Center Bore Tolerance +/- 1/32"  
Weight Tolerance 4.95 lbs +/- 0.4 lbs

## Features:

ArmorPolymer™ Pole Barrier Bases can be used with standard 1-1/2" Schedule 40 PVC pipe to construct practical test courses for typical certified equipment operator programs. The industry alternate 1-7/8" center bore diameter is undersize and may require pole end modification (slit, taper, etc.) for a friction type fit. These durable one inch thick solid plastic pole bases are machined from 100% recycled polyethylene as per the above drawing. This environmentally friendly material will not corrode, rot, splinter, or absorb water like plywood and is a cost effective alternative to virgin HDPE. See sales representative for additional product details, pricing, and order terms.

## Note:

ArmorPolymer™ recycled polyethylene material color can range from grey to black overall with various colored specs. Surface finish can range from smooth to moderate texture. Product specifications are subject to change without prior notice.

## Manufacture:

ArmorPolymer™ Recycled Plastic Products by Good Innovation LLC, 3601 San Juan Rd, Sacramento, CA, 95833, Phone: (916) 920-8620, Fax: (916) 920-8618, Website: [www.goodinnovation.com](http://www.goodinnovation.com), Email: [mail@goodinnovation.com](mailto:mail@goodinnovation.com). Made in the USA.
